DEFAULT LANGUAGE ⓘ

Indonesian — id

Primary language for your agent. Other languages can be added later.

DEFAULT TIME ZONE

(GMT+7:00) Asia/Bangkok

Date and time requests are resolved using this timezone.

GOOGLE PROJECT

New GCP project will be automatically linked to the agent after saving

AGENT TYPE

☐ Set as Mega Agent

Combine multiple Dialogflow agents (i.e. sub agents) into a single agent (i.e. [mega agent](#)).

Please, create at least one agent to access the test console

The screenshot shows the Dialogflow console interface in a web browser. The interface is divided into three main sections:

- 1. Sidebar:** Located on the left, it contains navigation links for various Dialogflow components: Bunga, Intents (highlighted), Entities, Knowledge [beta], Fulfillment, Integrations, Training, Validation, History, Analytics, Prebuilt Agents, Docs, Standard Free, Support, Account, and Logout.
- 2. Main content:** The central area displays the 'Intents' page. It includes a search bar, a list of intents (Default Fallback Intent and Default Welcome Intent), and instructional text: 'No regular intents yet. [Create the first one.](#)' and 'Intents are mappings between a user's queries and actions fulfilled by your software. [Read more here.](#)'
- 3. Dialogflow simulator:** Located on the right, it features a 'Try it now' input field and a microphone icon. Below the input field, there is a message: 'Please use test console above to try a sentence.' and a link: 'See how it works in [Google Assistant](#).'

Console interface layout:

1. Tambahkan beberapa perkataan untuk melatih agent. Dan pastikan warning dari Dialogflow sudah hilang. Ketika menambah perkataan baru (tekan enter) maka Dialogflow dapat mengenali entitas secara otomatis
2. Lakukan uji percakapan
